Inventor: KLINGLER

Attorney Docket No. 41587.012502(346)

S/N 10/760,658

REMARKS

By this amendment claims 12-31 have been canceled without prejudice and new claims

32-42 have been added. The new claims are fully supported by the originally-filed specification.

In addition, the term "tongue" as employed in the new claims is used in a conventional sense, to

indicate a structure of varying shape and dimensions that is attached on one side, of which the

partial panels 11, 12 shown in Fig. 1 are examples.

I. Notice of Non-Responsive Amendment

Cancellation of claims 1-31 along with addition of new claims 32-38 fully responds to the

prior office action.

II. Conclusion

Applicants respectfully submit that all of the independent and dependent claims are

allowable over the prior art of record. It is believed that a full and complete response has been

made to the outstanding Office Action, and as such, the present application is in condition for

allowance. If the Examiner disagrees, he is invited to telephone the undersigned at the number

· provided so that an interview may be scheduled.
